SQL Queries:

Logging In:

SELECT E_EmployeeID from Employee

Where E_EmployeeID = @ID and E_Password = @Password

Creating Transaction:

INSERT INTO TransactionLogs(T_AccountID, T_EmployeeID, T_LocationID, T_BalanceChange, T_TransactionDateTime)

VALUES (@AccountID, @EmployeeID, @LocationID, @BalanceChange, GETDATE())

Updating Account:

UPDATE Account

SET A_AccountBalance = A_AccountBalance + CONVERT(INT, @BalanceChange)

WHERE A_AccountID = CONVERT(INT, @AccountID);

Viewing Customers:

SELECT * FROM Customer

Viewing Transactions:

SELECT * FROM TransactionLogs
